

## Take advantage of a weekly, captive audience checking out science stories.

Our *Science* Podcasts series is one of the most popular and engaging pieces available to the scientific community on the *Science* website. Every Thursday, host Sarah Crespi delves into the latest scientific discoveries with researchers and news writers from around the globe. Curated topics touch on everything from how researchers are battling stinkbugs using samurai wasps to the way DNA might be used to predict how a suspected criminal might look.

### RESERVE YOUR SPOT TODAY

Our podcasts offer three spots within its air time: pre-roll, mid-roll, and post-roll. Due to the popular nature of these spots, we limit the number of advertisers for the spots per month. Be sure to reach out to your sales manager to inquire about availability.

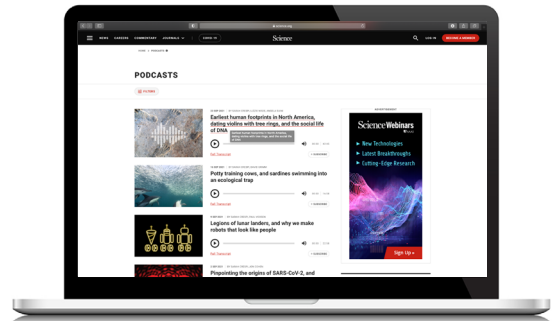

- 2 Pre-roll ads: 20 seconds in length, appear before the show's intro music.
- 2 Mid-roll ads: 60 seconds in length, appear between the first and second interview.
- 1 Post-roll ad: 20 seconds in length, appear after the final interview, before the end music and credits.

*Minimum purchase is a single spot over four episodes. Sponsors may also take over all ad spots with an exclusive package. Contact us for more information.*

### PODCAST RATES

- Pre-roll: \$3800 per month (Serving 200k impressions per calendar month)
- Mid-roll: \$4550 per month (Serving 175K impressions per calendar month)
- Post-roll: \$2700 per month (Serving 150K impressions per calendar month)
