Science | AAAS

As the weekly flagship journal of AAAS with a circulation of over **100,000**, *Science* reaches more scientists around the world than any other journal. At the center of important scientific discoveries since its founding in 1880 *Science* continues to publish the very best in peer-reviewed research across the sciences. With many ways to connect with *Science's* **3 million** monthly unique visitors and **230,000** opt-in eTOC subscribers, your organization can reach your target audience using the strategies that make the most sense for you.

Science Advances | AAAS

Science Advances is a weekly, online-only, open-access, peer-reviewed research journal that publishes articles that make important contributions to research in the life, physical, environmental, engineering, math, computer, and social sciences. With over **749,000** monthly unique visitors, and **143,000** opt-in eTOC subscribers, we have many great ways to reach this broader audience spanning biology, neuroscience, earth science, materials science, and more.

Science Immunology | AAAS

Science Immunology is a monthly, online-only, peer-reviewed research journal designed to facilitate understanding of the immune system by showcasing innovative advances in the expanding field of immunology, drawing from studies in all organisms and model systems including humans. With **70,000** monthly unique visitors, and **44,000** opt-in eTOC subscribers, we have many targeted ways to reach immunologists working on basic, applied, and translational research through banners, emails, and newsletter sponsorships.

Science Robotics | AAAS

Science Robotics is a monthly, online-only, peer-reviewed research journal providing a forum for technological advances and for the social, ethical, and policy issues surrounding robotics. The journal is multidisciplinary, covering the traditional disciplines of robotics, as well as emerging trends such as advanced materials and bio-inspired designs. Its scope is broad, addressing both theoretical advances and practical applications. With **67,000** monthly unique visitors, and over **36,000** opt-in eTOC subscribers, reach scientists dedicated to advancing the field with your advertising message.

Science Signaling | AAAS

Science Signaling is a weekly online-only, peer-reviewed research journal offering researchers groundbreaking research and commentary in the dynamic field of cellular signaling. From basic science to design of therapeutics and from molecules to networks and systems design, this weekly e-resource keeps researchers, faculty, and students ahead of the curve. Reach these **64,000** monthly unique visitors who use techniques such as PCR, electrophoresis, imaging, protein isolation, and more with a targeted banner or sponsor an email to **67,000** opt-in eTOC subscribers.

Science Translational Medicine | AAAS

Science Translational Medicine is a weekly, online-only, peer-reviewed research journal publishing translational research at the intersection of science, engineering, and medicine. Interdisciplinary approaches are particularly encouraged, for example, studies at the interface of engineering and diagnostics, chemistry and drug development, or cell biology and clinical medicine. Over **182,000** monthly unique visitors means that you can target researchers on the front lines of curing diseases including **79,000** opt-in eTOC subscribers who can see your company's messaging.

A MESSAGE FROM OUR PUBLISHER

Thank you for considering *Science* and the family journals to communicate with our global scientific community. The driving force behind our products is AAAS, which inspires and enables a robust research ecosystem that drives discovery and innovation. As always, your marketing spend with us supports our mission – advancing science, engineering, and innovation throughout the world for the benefit of all. We look forward to working with you to develop creative campaigns to fulfill your media goals.

Bill Moran, Publisher

OUR MISSION

Making a difference

Relentlessly advancing science, informing policy, and serving society, the American Association for the Advancement of Science (AAAS) is the mission-driven, non-profit publisher of the *Science* family of journals, promoting scientific excellence through many global initiatives. For more information on AAAS programs, visit AAAS.org

Education – Supports STEM education through programs, tools and policy.

Diplomacy – Builds global scientific cooperation through policy and diplomatic initiatives.

Budgets – Advocates for robust federal funding for science and innovation.

Advocacy & Policy – Empowers scientists to promote evidence-based decision-making worldwide.

STEM Careers – Helps scientists via training, networking and our job board.

Inclusivity for Excellence – Fosters a STEM ecosystem where everyone has the opportunity to go as far as their talent and drive can take them.

Together, we achieve results. Every partnership fuels our nonprofit, mission-driven efforts to advance global scientific knowledge and drive positive change.

THE POWER OF *SCIENCE*-BASED MARKETING

Whether you want to create unique sponsored content or just need a more traditional advertising solution, *Science* can connect your organization with our vast scientific audience to present your lab products, brand your company, or recruit your next hire. Our sales team can provide guidance and strategy to meet your needs and budget. Use *Science*'s powerful reach to help you brand, educate, engage and recruit.

CUSTOMIZED SOLUTIONS

Webinars – As a powerful lead-generation product and a valuable educational opportunity for our audience, *Science* Webinars can elevate your organization's thought leadership while filling your sales funnel. Your webinar will be promoted via *Science* and AAAS social media channels. You identify the topic and help mold the scope of the discussion. Our expert team handles set-up logistics, speaker invitations, and presentation coordination, as well as pre- and post-event marketing.
Brand, Educate, Engage

Sample webinars.

Booklets – Whether it's original content, a collection of articles previously published in the *Science* family of journals, or a combination of the two, sponsorship of a print booklet or eBook can drive awareness and encourage engagement while positioning your organization alongside the *Science* name.

Podcasts –

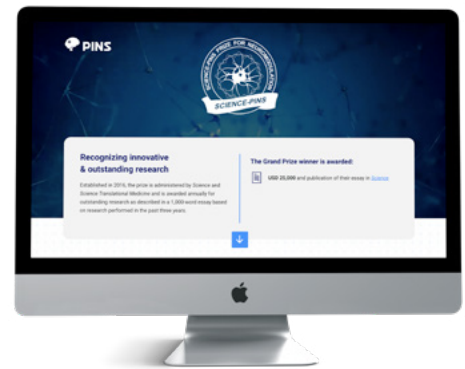

Science Podcast Sponsored Interview – Build your brand by sponsoring *Science*'s weekly, syndicated podcasts with a custom segment. These popular interview-style broadcasts average 26,800 downloads/episode. Learn more about how your organization can reach these valuable listeners. *Brand, Educate, Engage*

Custom Podcast – Create a customized podcast episode or series to share your brand's story with the scientific community. Highlight the exciting research going on at your organization through an in-depth conversation with a relevant scientist. *Brand, Educate, Engage*

Sample podcasts.

Microsites/Interactives – Let *Science* Custom Solutions build an interactive microsite to help you achieve your business goals. Our sites may include quizzes, infographics, timelines, imagery, audio, video, and other dynamic content to strengthen your brand's digital presence and lead traffic to your site. Whether a historical perspective of your company or an in-depth breakdown of a new product, microsites can be used to communicate clearly while engaging your target audience. *Brand, Educate, Engage*

Sample microsite.

Posters – Get back in the lab by collaborating with our team to help create and design an educational poster on the topic of your choice that boosts your brand. Distribution plans are designed to match your needs and budget and could include insertion in an issue of the journal *Science*, trade show distribution, and/or online viewing. For more impact, we can make your digital poster interactive. *Brand, Educate, Engage*

Sample posters.

Infographics – Infographics dominate the information landscape. Let *Science* Custom Solutions work with you to design visually effective graphics to educate scientists, promote products, or highlight your organization's research focus with a dynamic and engaging presentation. *Educate, Engage*

Sample infographics.

THE POWER OF SCIENCE-BASED MARKETING

📌 **Awards & Prizes** – In partnership with the editorial team at *Science*, demonstrate your organization's commitment to the scientific community by sponsoring a prize/award in a field of your choosing. *Brand, Educate, Engage*

Sample awards and prizes.

📌 **Sponsored Meetings** – Partner with *Science* to create a targeted event – either virtually, in-person, or hybrid – to bring together the scientific community around a topic important to your organization. Work with a *Science* editor and our marketing team to develop and promote the event to generate leads. *Brand, Educate, Engage*

“ It was an immense pleasure and a great success. We are proud of the series' reach, with the last three webinars achieving an average of over 200,000 views across platforms. It was wonderful to see such active engagement from researchers and students worldwide. Moreover, the organizing teams worked together brilliantly to handle every challenge that came up, like time zones and technical logistics. Their hard work was fundamental to this achievement. We are all incredibly enthusiastic about continuing this wonderful collaboration and exploring future opportunities together.

Xi Wang, PhD, Westlake University

📌 **Videos** – Create captivating videos that tell your story through interviews, images, and animations. From short videos to engage your social media channels to longer visually compelling narratives that dig deeper into the science, we can ensure that your message comes through. *Brand, Educate, Engage*

📌 **Surveys/Market Research** – Receive actionable intelligence by surveying our audience. Whether your company is looking for a quick gauge of industry sentiment, a detailed analysis of your newest product line, or how customers feel about your organization's brand, *Science* surveys provide the answers with targeted customizable surveys. Extend the reach of your findings by letting our team of science marketing experts build a campaign based on your results. *Research*

📌 **Science@Work** – Showcase your employer brand or promote an award, prize or meeting with a sponsored feature that blends educational career content with your message. These engaging features are highlighted on the homepages of both ScienceCareers.org and Jobs.ScienceCareers.org. *Brand, Educate, Recruit*

TRADITIONAL ADVERTISING

Print Advertising – *Science* is a leading, trusted scientific journal. Readers of our 51 weekly issues save it and share it. The visual impact of your ad alongside high-caliber research, award-winning news, and topical perspectives effectively delivers your message to the scientific community. If you are hiring, your job ads brand your company while attracting potential hires. *Brand, Recruit*

READERS WHO TOOK SOME ACTION AFTER SEEING AN AD IN *SCIENCE*

THE POWER OF SCIENCE-BASED MARKETING

📧 Newsletter Sponsorships –

ScienceAdviser – Include your brand alongside this fresh selection of news, research, and perspectives with traditional banner ads and ask your sales representative about native ad opportunities within the newsletter. The ScienceAdviser audience is over 170,000 and growing. *Brand*

Science Focus – Align your organization's message with Science articles around a specific topic. Whether your product involves neuroscience, mass spectrometry, or any other specialty, this newsletter puts your name out in front and associates your organization with the most up-to-date research, news, and science policy content. Take advantage of this opportunity to showcase your message to scientists working in those fields that are important to you. Science Focus reaches 50,000 targeted subscribers. *Brand*

Career Path – Reach the 375,000 recipients of the bi-weekly Science Careers newsletter by sponsoring this career development-oriented newsletter. *Brand, Recruit*

Sample newsletter.

🎧 **Podcasts** – Our Science Podcast series, streaming for 20 years, is one of the most popular and engaging series available to the scientific community. Episodes go live every Thursday at 2:00 PM Eastern and are syndicated for download on popular streaming services. Choose one of 3 ad spots (pre-roll, mid-roll, post-roll) within each podcast to have our host read your company message to a relevant audience. *Brand*

📄 **Science Careers Job Board** – Your job posting partner for top talent in STEM. With over nearly 200,000 unique visitors monthly, recruiting highly qualified candidates is as easy as posting your job. Post a single job or have all your jobs posted with an autopost package. *Recruit*
